Confirmed COVID-19 Case in Iron County

Iron County Public Health is confirming the first death associated with novel coronavirus infection (COVID-19) in Iron County, which is also the first confirmed case.

“We are saddened by this death and our hearts go out to the family, friends, and community,” said Katie Hampston, Director of Public Health Iron County. “We strongly encourage our residents to stay safer at home unless activities are essential. That is the best way to prevent the spread of COVID-19 and protect the health and safety of our community.”

Iron County Public Health is committed to sharing accurate information and we recommend the following sources:
